

## HEALTH PROFESSIONS ADVISING OFFICE Medical School Academic Preparation

These courses meet the requirements for most medical schools (MD, DO, DPM) and for preparation for the MCAT. Medical schools generally do not accept AP credit or on-line courses for these *required* courses. **Be sure to check each medical school's requirements.**

No medical school requires a science major, nor are science majors given extra consideration in the admission process. Becoming a competitive medical school applicant also requires more than a solid GPA and MCAT score. **Be sure you are meeting regularly with your HPAO advisor.**
